

## Accessibility Services

HCC is committed to providing equal access to students with disabilities, through appropriate accommodations and services, based on individual, documented need. Post-secondary accommodations require student self-advocacy and independence. All information held in the Accessibility Services Office is considered confidential and will only be used for academic purposes without written student consent. The Accessibility Services Office is located in Room 103 in the Parker Student Union.

### How Students Access Accommodations:

1. Students who wish to request accommodations based upon documented disabilities should contact the Coordinator of Accessibility Services to schedule an intake interview. During this initial meeting, discussion will focus on how the disability affects the student and what accommodations will be needed. Early contact is encouraged as it can take weeks (or months in the case of recorded textbooks and assistive technology) for accommodations to be arranged.
2. Students will be required to provide appropriate documentation of their disability. The documentation must follow established guidelines and must include justification for the requested academic accommodation. The documentation needs to be sent directly to the Coordinator of Accessibility Services, HCC, 1300 N. Plum, Hutchinson, KS 67501.
3. The Coordinator of Accessibility Services will determine if the documentation is adequate to both establish the existence of a qualifying disability and to support the requested accommodations.
4. Students must request accommodations each semester and requests should be made as far in advance as possible.
5. Students must notify the Coordinator of Accessibility Services of any schedule changes.

### Types of accommodations may include, but are not limited to:

- Note taker or scribe
- Extended time on tests
- Testing in a reduced distraction environment
- Books in alternate format
- Sign language interpreters
- Assistive technology

Once approved to use accommodations, students will be given an Accommodation Letter for their instructors to sign which notifies them of the student's accommodations. Once the student returns this signed letter, the Coordinator of Accessibility Services will email a copy to each instructor for their records. All requests for accommodations and services will be considered on a case-by-case basis. Factors affecting the provision of accommodations and services will be dependent upon disability, documented need, and the compliance requirements of the Americans with Disabilities Act and section 504 of the 1973 Rehabilitation Act.
