Everything You Need To Know About The ATI TEAS® Exam.

PREPARE AND PASS WITH CONFIDENCE.

What is the ATI TEAS?

The ATI Teas (Test of Essential Academic Skills) is designed to specifically assess a students' preparedness entering the health science fields. Most likely, you've been asked to take the TEAS as part of your basic admissions requirements for your nursing or allied health program. That's because studies show a consistent link between a student's performance on the TEAS and future academic success.

The ATI TEAS exam is comprised of 170 questions, 20 of which are unscored pretest items. Questions are designed to test the basic academic skills you will need to perform in class in the areas of: Reading, Math, Science and English and Language Usage.

Helpful tips to remember for the TEAS:

- Photo ID required.
- If your server goes down, simply close your browser window, log in again, and click back into the test. You will be able to resume the test where you left off.
- You should have nothing with you while taking the test (no cell phones, books, bags, etc.).
- Close all other programs and/or windows on the testing computer prior to logging into the proctored test environment.
- You will immediately be able to view the test results.

Test Environment

The online testing environment should mimic the "in class" testing environment, and must conform to the following:

- No leaving the room. You are allowed a 10-minute break after the Math section. https://help.atitesting.com/do-you-allow-bathroom-breaks-during-the-online-teas-exam
- Sit at a clean desk or clean table (not on a bed or couch)
- Lighting in the room must be bright enough to be considered "daylight" quality. Overhead lighting is preferred; however, if overhead is not possible, the source of light should not be behind the student.
- Be sure the desk or table is clear of all other materials. This means removal of all books, papers, notebooks, etc. You may have blank paper and a pen or pencil for calculations; you must show this into the camera when scanning the room. Be sure to show both sides of the paper. You may use the built-in calculator or your own may not be the one on your phone.
- External cameras, when possible, should be placed on the lid of the laptop or where it will have a constant, uninterrupted view of the test taker. Please make sure that the test taker is centered in the camera view.
- Close all other programs and/or windows on the testing computer prior to logging into the proctored test environment.
- Do not have a radio, music or the television playing in the background.
- Do not talk to anyone else – No communicating with others by any means with the exception of contact with proctor/ support persons.
- No other persons except the test-taker should be permitted to enter the room during testing.

Behavior:

- Dress as if in a public setting
- You must not take the computer into another room to finish testing (exam must be completed in the same room the "Exam Environment View" is completed in).
- No use of headsets, headphones, Bluetooth, and ear buds or ear plugs (or similar audio devices) are permitted.
- Have the webcam correctly situated: webcam must be focused on the individual taking the exam at all times. Nothing covering the lens of the camera at any time during the exam.
