Silica Enforcement

The purpose of this proposed rule is simple — to better protect miners from exposure to silica so they do not have to suffer from entirely preventable debilitating and deadly occupational illnesses. Silica overexposures have a real-life impact on a miner's health.

MSHA UPDATES

TRAM CONFERENCE Beckley, WV

The Training Resources Applied to Mining Conference (TRAM) will be held in person at the National Mine Health and Safety Academy on October 10-12, 2023. Featuring presentations from some of the industry's most respected safety trainers, this tuition-free conference helps health and safety trainers improve their training skills and infuse their training programs with new ideas and materials. A limited number of workshops will also be streamed online to accommodate our remote attendees.

It is getting to be that time of year, where we start looking at our Annual Refresher dates. We try to schedule your next years training at the end of the current years training. However, if you do not have a current training date for 2023 (Sept. - Dec.) or 2024 (Jan. - Aug.), please call Chrystal Dye at 785-221-0018 as soon as possible. Our calendar is very full in the winter so the sooner you call the better chance of getting in the month you need.

I will also be holding 2 Train-the-Trainer classes in 2024.
