## ABOUT US

The HutchCC Safety Academy has been providing safety and health training to business and industry employers since 1985. HutchCC Safety Academy specializes in MSHA & OSHA compliance training, OSHA numbered program training as well as First Aid & CPR training.

Our training content includes the latest information and technological resources from MSHA & OSHA as well as the continuous development of training formats such as virtual reality.

Our specialized training can be customized to meet business specific requirements and can be provided in both English or Spanish at our training facility or at your location of choice.

Our program is affiliated with the Mine Safety and Health Administration (MSHA), United States Mine Rescue Association (USMRA), Joseph A. Holmes Safety Association, Sunflower Safety Council and Great Plains OSHA Education Center.

## MSHA TRAINING

HutchCC Safety Academy has been the leading provider of Safety and Health training for Surface & Underground Mines since 1985. We offer Mine Safety and Health Administration (MSHA) training for both Part 46 Surface and Part 48 (a)(b) underground mine training requirements. We also provide Mine Rescue Training assistance, Train the Trainer Courses and MSHA Standards Training.

## OSHA TRAINING

HutchCC Safety Academy also provides OSHA compliance training for both Construction and General Industries. The training topics listed below are available at our institution training facility or can be facilitated in person at your workplace.

- OSHA 10/30 Hour
- Machinery and Machine Guarding
- Fall Protection
- Excavation, Trenching and Soil Mechanics
- Confined Space Training
- First Aid & CPR (ASHI)
- Lock Out/Tag Out/Electrical Standards
- Hazard Communication/Materials
- Silica/Respiratory Protection

## PEC SAFELAND TRAINING

HutchCC Safety Academy's qualified staff also provides SafeLand training for the Oil and Gas Industry. The training offered is a course of general basic safety training customized for oil and gas personnel. In addition, we also offer H2S Clear which is a 4 hour class that informs employees about H2S and it's related hazards.

## BUSINESS UMBRELLA PROGRAM

Our program has available staff that can further assist your safety program by providing consultation services under our business umbrella program. Our staff provides safety support services such as:

- Written Safety Program Development
- Worksite Risk Assessments/Mock Inspections
- Safety Program Audits
- Noise & Dust Testing
- Expert Witness Services (MSHA)

Services can be customized to meet your business and compliance needs.
