

**Hutchinson Community College and McPherson College Articulation Agreement**  
**Associate of Science Degree in Chiropractic-Transfer/Bachelors of Science in Health Science**  
**Fall 2024**

The purpose of the articulation agreement is to provide Hutchinson Community College's students a four-year coordinated program where students will receive an Associates of Science (AS) degree at Hutchinson Community College (HutchCC) in the first 2 years and a Bachelor of Science in Health Science degree from McPherson College (MC) after 2 additional years. This agreement will provide guidance for both parties in advising students.

This agreement is for Hutchinson Community College students who have:

- Earned an Associate of Science (AS) degree according to the attached degree plan.
- Achieved a minimum cumulative GPA of 2.0.
- Applied for admission to McPherson College.

McPherson College students meeting the above requirements will:

- Be guaranteed admission to McPherson College with completion of application requirements and receipt of transcripts.
- Enter with junior status towards a baccalaureate degree.
- Be guaranteed a transfer up to 64 credit hours from Hutchinson Community College to McPherson College.

This partnership reflects the following objectives, institutional expectations, and operational principles:

- Expanded student program opportunities, course articulation understandings, and transfer coordination considered mutually beneficial in this coordinated partnership.
- Graduates will possess the technical skills and conceptual background, creative mindset, and applied experiences to address the workforce needs for achieving the desired economic development in the State of Kansas.
- All students must complete all major, institutional and required degree requirements appropriate to the program curricula at the degree granting institution to graduate.
- Both Hutchinson Community College and McPherson College program faculty and administrators will promote the program with qualified prospective students and share assessment of learning outcomes toward the goal of program improvement.
- Students can inquire about academic and participation scholarships, financial aid, and grants by contacting Meghan Iglehart at the McPherson College admissions office at 620-242-0464.
- Students transferring to MC from Hutchinson Community College who have not completed an AS must meet the necessary requirements for admission to MC and will have their transcript evaluated on a course-by-course basis.

To ensure a successful transition and completion of the associate's and bachelor's degrees from both institutions on this articulation agreement, students should refer to the required degree plans or stipulation of this agreement. Students must meet all requirements to earn their degrees at both institutions. Courses used as prerequisites may have higher-grade requirements as described in the McPherson College undergraduate catalog.

**Reverse Transfer**

Students who transfer to McPherson College from Hutchinson Community College before attainment of the Associate of Science degree are eligible to reverse transfer courses that have MC/HutchCC equivalency back to HutchCC. This allows for the attainment of the Associate of Science degree provided that at least 45 credit hours are earned at HutchCC and all other degree requirements are met. Students will not be charged for the official transcript from McPherson College to be sent to Hutchinson Community College.

**Modification of Agreement**

This agreement shall only be modified in writing with the same formality as the original agreement.

**Terms of Agreement**

The agreement will begin with the 2024-2025 academic year.

**Termination of Agreement**

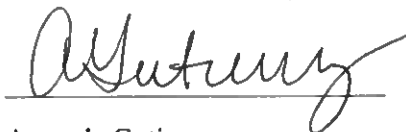

Either party may terminate this agreement for any reason with a written notice from either party.

This agreement is a collaboration between McPherson College and Hutchinson Community College. Any changes, corrections, or additions to this agreement shall be in writing and signed by all necessary parties from both academic institutions.

**McPherson College**
