

Earn a Degree in Health Care Administration

**SCHOLARSHIPS
AVAILABLE**

Grand Canyon University offers bachelor's, master's and doctoral programs in health care administration online to help you remain competitive in health care. Through these programs, you may be able to develop and implement solutions that address today's challenges in the health care field.

Bachelor of Science in Health Care Administration

Earning your bachelor's degree in health care administration can help you gain the project management, teamwork and leadership skills needed in contemporary health care organizations. This program can prepare you for career entry into health care administration.

Master of Science in Health Administration

Aspiring health care managers can gain a strong business foundation through this master's program. You'll have the opportunity to learn conceptual, analytical and business practices, plus innovative methods of analyzing, evaluating and implementing health care models. As a graduate, you may position yourself to possibly work in middle to upper management in diverse health care settings.

Doctor of Health Administration

This program is designed to help leaders expand their capabilities and adapt a range of leadership styles to use in diverse situations. This program can give established professionals and leaders the opportunity to directly contribute to and impact the health care field.
