

## Web Development Platform - IS215

---

**Section:** IS215 001192S Main Campus

**Section Type:** Lecture

**Credit Hours:** 3.00

**Course Description:** This is a PHP programming course which provides the knowledge necessary to design and develop dynamic, database-driven web pages. This web language provides substantial website functionality including e-commerce. In-depth techniques, the PHP framework, and syntax used to build dynamic websites will be explored. Connectivity to ODBC-compliant databases with hands on practice creating database-driven HTML forms and reports with databases such as MySQL will be applied. .
