Elements of Linux - IS235

Section: IS235 001192S Main Campus
Section Type: Lecture
Credit Hours: 3.00
Course Description: Installing, configuring, administrating and troubleshooting the Linux operating system in a vendor neutral environment; a hybrid between survey and practicum with attention given to basic commands of the Linux operating system in addition to file, device and directory management; exposure to networking and system services as well as in-depth understanding of the structural organization of the file system.
Section Notes: Students should have a fundamental knowledge of at least one operating system and some familiarity with basic networking concepts. Experience with DOS, Windows NT/2000/2003 or Windows XP is expected.
